

Application & Screening Process

Renewed Horizons Independent Living Program

1. Submit the Intake Application

Applicants begin by completing our online Intake Form, which gathers essential information such as personal details, medical and behavioral health history, emergency contacts, housing preferences, and support needs.

2. Eligibility Review

Our team conducts an initial review to verify identity, age, level of independence, and overall fit for the services we provide. Additional documentation may be requested if needed.

3. Background & Reference Check

To help maintain a safe community environment, we complete a basic background review and may verify housing history or case manager involvement. Past challenges do not automatically disqualify an applicant; our focus is on current safety and readiness.

4. Interview or Meet-and-Greet

Qualified applicants participate in a brief phone, virtual, or in-person interview. This allows us to understand goals, answer questions, discuss expectations, and ensure the program is a good fit.

5. Final Determination

Applicants receive an approval notice with next steps—or a referral to alternative resources if our program is not the best match. Every effort is made to help each applicant find safe and stable housing.

6. Move-In Preparation

Approved applicants receive a welcome guide, community expectations, move-in date, and orientation details. Staff can assist with transportation or logistics when needed.

A Respectful & Supportive Process

Renewed Horizons is committed to a confidential, fair, and supportive process designed to promote dignity, safety, and long-term housing stability for every applicant.
